PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience building production web and mobile systems, including a role-based Flutter HR management app and an end-to-end Help Desk ticketing platform, during an IT internship. Skilled in PHP/Laravel, Flutter, and MySQL/PostgreSQL, with a network administration and IT support background from a prior internship at INTAN. Seeking a Software Engineering, Mobile Development, or Systems IT role to apply full-stack development and database design skills to real-world business problems.

PROFESSIONAL EXPERIENCE

IA SoftTech

IT Assistant Intern | March 2026 – July 2026

- Engineered an end-to-end Help Desk ticketing system, designing the backend logic and database schema used to log, track, and resolve internal user requests.
- Redesigned the company's corporate website using modern, minimalist UI/UX principles, strengthening brand presentation and improving usability.
- Built a Human Resource Management mobile application in Flutter with role-based access control across five permission tiers (Super Admin to Executive), supporting staff leave, claims, and attendance workflows.
- Diagnosed and resolved hardware, software, and network issues for internal employees, maintaining uninterrupted daily business operations.
- Partnered with internal stakeholders to gather requirements and translate user feedback into actionable website features and system updates.

Institut Tadbiran Awam Negara (INTAN)

Technical Support Intern | March 2022 – July 2022

- Diagnosed and resolved hardware, software, and network issues across computer systems and printers for IT officers, minimizing service downtime.
- Executed software installations and updates across 30+ departmental PCs.
- Documented hardware inventory and service records to support internal audit processes.
- Configured projectors and network setups on-site for departmental events.
- Collaborated with technical staff to identify system performance issues and propose improvements.

EDUCATION

Universiti Teknologi MARA (UiTM)

Bachelor of Computer Science (Hons.) Netcentric Computing

2023 – 2026 | Current CGPA: **3.27**

Politeknik Sultan Idris Shah

Diploma in Electronic Engineering (Computer)

2019 – 2022 | CGPA: **3.20**

Sekolah Menengah Kebangsaan Taman Tasik

Sijil Pelajaran Malaysia (SPM) – Account Stream

Graduated: 2018 | Result: 5B

PROJECTS

- LETRIK Electrical Services Marketplace — Built a web-based marketplace connecting customers with electrical service providers using Laravel and PHP; evaluated usability and adoption using the Technology Acceptance Model (TAM).
- Modern Corporate Web Solution — Developed a responsive corporate web application with automated content management and optimized routing for faster page performance.
- HR Management Mobile App — Built a Flutter-based HR app with role-based access control (Super Admin to Executive) for leave, claims, and attendance management.
- Help Desk Ticketing System — Engineered a centralized system to log, track, and resolve hardware/software issues reported by company suppliers.
- Network Configuration Simulation — Designed and tested a small-scale LAN in Cisco Packet Tracer, covering IP addressing, router setup, and device connectivity testing.

INVOLVEMENTS & ACHIEVEMENTS

- International Competitive Programming & Multimedia Competition (2023) – Represented institution in various technical events and achieved 4th place in Mobile Legends
- Sports & Leadership Activities: Achieved 1st place in Shot Put, 3rd place in Marching, and represented the institution in Handball

TECHNICAL SKILLS & LANGUAGES

- **Languages & Frameworks:** PHP (Laravel), C++, Python, Flutter (Dart)
- **Databases:** MySQL, PostgreSQL, Database Design (CRUD)
- **Systems & Networking:** Linux (Ubuntu/Debian), Router & Switch Configuration, IP Addressing, Network Design, PC Assembly & Hardware Troubleshooting, Cisco Packet Tracer, GNS3
- **Tools:** Visual Studio Code, Android Studio, Laragon, Arduino IDE, GitHub Copilot, Claude AI, Microsoft Office Suite
- **Other:** UI/UX Design Principles, Requirements Gathering, IT Help Desk/Ticketing Systems, Cloud Management
- **Languages Spoken:** Malay (Proficient), English (Native)
